

Contents

- 1 Macroeconomic Uncertainty in a Corporate Perspective 3
 - 1.1 Introduction 3
 - 1.2 The macroeconomic environment of the firm 6
 - 1.3 What level of concern? 11
 - 1.4 Macroeconomic Uncertainty Strategy (MUST) 12
 - 1.5 The contents of this book 13
- 2 Concepts of Macroeconomic Risk Management 16
 - 2.1 Introduction 16
 - 2.2 Corporate risk: A brief review of the concept 17
 - 2.3 Corporate risk: Who cares? 20
 - 2.4 Macroeconomic risk 25
 - 2.5 What could be gained from a risk management program? 28
 - 2.6 Risk management and the creation of options 30
 - 2.7 Concluding remarks: The case for risk management 31
- 3 Traditional Approaches to Measuring Macroeconomic Exposure 34
 - 3.1 Introduction 34
 - 3.2 From transaction exposure to economic exposure 35
 - 3.3 Translation exposure 42
 - 3.4 From translation exposure to economic exposure 43
 - 3.5 Does the translation method matter? 45

- 3.6 A comparison of exchange rate exposure measures 46
- 3.7 Interest rate exposure measures 49
- 3.8 Concluding remarks on traditional exposure measures 55
- Appendix 3.1: Measuring translation exposure under the
monetary/non-monetary and the all-current methods 56
- Appendix 3.2: Purchasing Power Parity and real exchange
rates 60
- Appendix 3.3: International Fisher Parity 65
- 4 Measuring Macroeconomic Impact on the Firm: A
Comprehensive Approach 70
 - 4.1 Introduction 70
 - 4.2 Determinants of cash flow exposure 71
 - 4.3 Estimating cash flow exposure 76
 - 4.4 Decomposing cash flow exposure 84
 - 4.5 Exposure coefficients and sizes of shocks 85
 - 4.6 The share price and macroeconomic fluctuations 85
 - 4.7 Concluding remarks on the comprehensive approach 86
- 5 Measuring Macroeconomic Exposure: The Case of Volvo
Cars 88
 - 5.1 Introduction 88
 - 5.2 Exposure coefficients 89
 - 5.3 The choice of dependent variable 90
 - 5.4 The choice of independent variables and time horizon 93
 - 5.5 Volvo Cars 94
 - 5.6 Results, interpretations, and the use of coefficients 101
 - 5.7 Using the exposure coefficients for future periods 107
 - 5.8 Concluding remarks on the case of Volvo Cars 110
- 6 Hedging Macroeconomic Exposure 113
 - 6.1 Introduction 113
 - 6.2 Derivative contracts and transaction exposure: An
overview 114
 - 6.3 Practices in managing translation exposure 120
 - 6.4 Hedging interest rate and inflation risks 125
 - 6.5 Hedging macroeconomic exposure to market price
variables 129
 - 6.6 Hedging with uncertain exposure using derivatives 135
 - 6.7 Taxes and hedge contracts 138
 - 6.8 Concluding remarks on approaches to hedge macroeconomic
uncertainty 140

- 7 Evaluating Cash Flow at Risk 143
 - 7.1 Introduction 143
 - 7.2 From exposures to Cash Flow at Risk (CFaR) 144
 - 7.3 Information requirements for CFaR analysis 147
 - 7.4 Norsk Hydro and its exposures 148
 - 7.5 Estimating CFaR 151
 - 7.6 Hedging exposure to reduce CFaR 152
 - 7.7 Concluding remarks on Cash Flow at Risk 153
- 8 Strategies for Risk and Exposure Management 155
 - 8.1 Introduction 155
 - 8.2 Choice of target variable and time horizon 156
 - 8.3 Management's risk attitude 159
 - 8.4 Price adjustment in goods and financial markets 160
 - 8.5 Choice of exposure management strategies 161
 - 8.6 Information requirements 164
 - 8.7 Adjustability of commercial operations: Real options 167
 - 8.8 Concluding remarks on the choice of strategy 169
- 9 Recognizing Macroeconomic Fluctuations in Value-Based Management 170
 - 9.1 Introduction 170
 - 9.2 VBM and macroeconomic fluctuations 171
 - 9.3 Cash flow decomposition and valuation: The case of Electrolux 173
 - 9.4 Decomposition in performance assessment 176
 - 9.5 Taking flexibility into account 177
 - 9.6 Concluding remarks about MUST analysis in performance assessment 180
- 10 Evaluation, Feedback, and Organization 183
 - 10.1 Introduction 183
 - 10.2 Managers' incentives and the firm's objectives 184
 - 10.3 Realized versus non-realized and anticipated versus unanticipated gains and losses 187
 - 10.4 Nominal versus real magnitudes 190
 - 10.5 Evaluation of risk management strategies 190
 - 10.6 Centralization versus decentralization of risk management 192
 - 10.7 Concluding remarks on evaluation, feedback, and organization 195

11	What Shareholders Ought to Know	197
11.1	Introduction	197
11.2	Efforts to create standards	200
11.3	A comprehensive approach to assessing the impact of macroeconomic fluctuations on the firm	204
11.4	Contemporary practice relative to IAS 1 on reporting of macroeconomic influences	205
11.5	Illustration of an information release that satisfies the demands of the outside shareholder	212
11.6	Concluding remarks on the reporting of the impact of macroeconomic fluctuations on corporate performance	215
12	Macroeconomic Uncertainty Strategy (MUST) Analysis: A Summary	218
12.1	Introduction	218
12.2	Shortcomings of traditional methods	219
12.3	Measures of corporate performance and exposure assessment	220
12.4	Elements of MUST analysis	222
