

Table of contents

Part one: Introduction

1	What is wrong with innovation policy?	9
1.1	Introduction	9
1.2	The state of uncertainty	10
1.3	Problems with current innovation policies	11
1.4	Policy recommendations	13
1.5	The organization of this book	14

Part two: An assessment of current policies

2	The pattern of current policy	17
2.1	Introduction	17
2.2	The cost of innovation policy	17
2.3	Innovation policy tools	22
2.4	Subsidy instruments	24
3	Why public innovation policies?	26
4	Empirical evaluation of the effectiveness of current policies	31
4.1	Introduction	31
4.2	Previous empirical studies	31
4.2.1	Introduction	31
4.2.2	General subsidies	33
4.2.3	Selective subsidies	35
4.3	The Swedish survey study	38
4.4	An experiment on project selection	40
4.5	Other innovation policy issues	42

Part three: Reforming innovation policy

5	The politics of innovation policy	48
5.1	Introduction	48
5.2	The formation of innovation policy	48
5.3	An independent policy evaluation	52
6	Performance measurement	55
6.1	Introduction	55
6.2	Experimental policy evaluation	55
6.3	Project evaluation	59
7	The custom design of subsidy systems	62
7.1	Introduction	62

7.2	Theoretical principles	62
7.3	Practical application of optimal subsidies	65
7.4	Subsidy targets and rules	67
8	Summary of policy conclusions	70
	Part four: Selected studies	75
9	The efficiency of innovation subsidies	75
9.1	Introduction	75
9.2	The survey design	77
9.3	General judgements of policy effectiveness	79
9.4	Judgements of policy effects on specific projects	80
	Appendix	86
10	Performance measurement	87
10.1	Introduction	87
10.2	A simple scheme for estimating social value	90
10.3	The computerized cost-benefit program EPRO	98
11	An experimental test of cost-benefit methods	105
11.1	Introduction	105
11.2	A laboratory experiment	107
11.3	A real life experiment	109
12	The incentive subsidy	116
12.1	The impossibility of incentive compatibility	116
12.2	The incentive subsidy	119
	Appendix	127
	Bibliography	129
